

Department of Public Works

Report for June 2017

Submitted By

Purnell Hall

During the Month of June Public Works assisted Code officers with replacing concrete barricades in the 5100 block of 57th Avenue. Due to the summer more Pedestrians are walking. Public Works has clean a lot of Graffiti throughout the Town. The alley in-between 55th Avenue and 56th Avenue was cleaned by the Public Works Department due to a huge volume of student walking. Repaired (weld) one 4X6 section of the Bostwick fence in the front of the property. Damage sign were repaired in the 5200 Block of Quincy also 4400 block of 54th Place. Made sure all Fire Hydrants were clear of any overgrowth. Assisted Rogers Height Elementary school with their Food give away. Two new residents were issued new Town of Bladensburg trash cans. Help prepare and cook during the Town employee luncheon. Made sure the 30mph sign was visible in the 5000 block of Quincy Street. Made sure all drains in Town was free of debris. Project 201 Kenilworth Ave striping has been completed. In the fall PEPCO will be doing a tree replacement within the Town of Bladensburg. As we get closer to the date a PEPCO representative will come out and give more detail information.

2017 summer MML classes

1. Transfer of Development Rights (TDRs)

➤ Ways of Looking at Preservation & Investment

Would you like a tool to help maximize your place-making capabilities and support redevelopment in your municipality? Are you interested in increasing land preservation without using public money? Join the conversation on Transfer of Development Rights (TDR). This workshop will include presentations from those working on TDR issues as well as interactive discussion with attendees about specific local challenges and solutions.

2. Hot Button Legal Issues

- Presenters will discuss some of the more significant legal issues currently impacting municipal governments in Maryland. Topics will be drawn from recently issued court decisions, legislation emerging from the 2017 General Assembly session, and other topics that challenge city and town governance. This interactive session will incorporate polling technology that allows attendees to test their knowledge of municipal law against how state and federal judges viewed the most pressing questions facing local government.

3. Approaches to Infrastructure Financing

- From dedicated green infrastructure funding to tax increment financing to crowdsourcing, municipalities are increasingly exploring new means for financing projects large and small. Panelists from a variety of infrastructure funding backgrounds will discuss the latest strategies and emerging practices for bringing local government projects to fruition. The session will include opportunities for attendees to share their experiences and proposals for tools addressing the infrastructure needs of Maryland's cities and towns.

Building Maintenance:

1. Made sure all Fire extinguishers are good
2. Building inspection Town Hall, Code, Police Station
3. Town Hall A/C needed to be charged
